## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 16 has been rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitation directed to a 'non-manual force' is indefinite. What is a 'non-manual' force? Is it an automatic force or some other type of force?

Also, it is not quite clear what method is being claimed. Is it a method of providing a non-inertial safety restraint system for vehicles as recited in the preamble of claim 16 or is it a method of operating a safety buckle such as, normally retaining the slide release member in spaced non-contacting relationship from the pair of latching mechanisms, moving the pair of latching mechanisms from the first locking positions, releasing the latch plate from the pair of latching mechanisms only upon an application of manual force and mechanically blocking the pair of latching mechanisms from moving to the second release positions as recited in the body of the claim

### ***Claim Objections***

3. Claim 1 has been objected to because of the following informalities: in the third line from the end of the claim, 'said' has been misspelled as 'ssid'. Appropriate correction is required.

***Allowable Subject Matter***

4. Claim 16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. Claims 1, 4-6 and 8-15 have been allowed.
